Strikes in France

Dear Customer,

As you may be aware, there is major striking throughout France at the moment which we expect will result in some delays over the coming days/weeks.

Transport within France was already going to be tricky with the French public transport workers strike leaving most major railway junctions closed, effectively grinding multi-modal services to a halt however to add fuel to fire, lorry drivers have announced that they will also be staging road blocks.

The hauliers group Organisation des Transporteurs Routiers Européens have announced that its members will be staging protests including road blocks across France from Saturday, December 7th.

We will bring you further general information as its available to us, meantime our Operations Team will contact you regarding any shipments effected.

Please don't hesitate to contact us should you require any additional info.

As ever Raycole Global Logistics will do all we can to assist you and keep you updated on any further news.

**Many thanks,
Raycole Team**
